WORK EXPERIENCE

Mar 2013–Present

Lead Developer

Metglobal, İstanbul (Turkey)

- This is the company behind hotelspro.com, otel.com, tatil.com, gezi.com, dhr.com. We are redesigning, recreating whole infrastructure for these and oncoming sites.
- Managing a great team building backend infrastructure and services to support large number of high traffic hotel reservation sites.
- Working with Python, Django, Postgresql, elasticsearch, redis etc.
-

Aug 2012–Mar 2013

Lead Developer

Tim Ticaret Net Bilişim Hizmetleri A.Ş., İstanbul (Turkey)

TTN is a technology (mainly software) creator company works under Turkish Exporters Assembly (TİM). TTN have responsibilities of supporting Turkish associations of exporters' (various sectors) growth.

I am responsible of managing software development team which works on various size of software (mainly web apps these days) projects.

For now we are using mainly python/django/postgresql stack. Main development and deployment occurs on linux based operating systems.

We are crafting high quality web sites and web applications top to bottom including design, frontend, backend, deployment phases.

Some keywords about me and my team's interests and involvements; python, django, postgresql, ubuntu server, git, uwsgi, nginx, fabric, rest apis, http etc.

Jun 2010–Aug 2012

Software Development Unit Manager

A&Y Marka Mağazacılık A.Ş., İstanbul (Turkey)

A big textile retail company includes the famous brands Network, Fabrika, Beymen Bussiness, Altınyıldız Classics, Arzu Kaprol, Que, T-box, Divarese. I am responsible of the maintenance and development processes of the ERP part of in house developed system.

Main database is Oracle 10g RDBMS and Oracle Forms 6i/10g, Reports 6i/10g tools for user interface.

I made use of Oracle object system in my projects. I implemented some applications with object oriented facilities provided directly in database.

May 2007–Jun 2010

Project Manager

Beymen Boğaziçi Albay Mağazacılık A.Ş., İstanbul (Turkey)

Big textile retail company includes the brands T-box and Divarese. I was responsible all of the software projects. Maintenance of the in house developed ERP system mostly coded on Oracle database and Forms/Reports tools was my primary responsibility. My team consist of one or two developer except me.

I manage the whole implementation/migration of a new ERP system called Nebim Winner. The planning, data migrating, testing and implementation was successfully done in six months.

Sep 2006–May 2007

Software Development Specialist

Akademi Yazılım A.Ş., İstanbul (Turkey)

Company were offering all in one solutions to big insurance companies. Oracle RDBMS, Oracle Forms/Reports tools were our main development stack. I coded directly on database with PL/SQL language. I improved my SQL experience and skills on direct database programmable objects like stored procedures, functions, packages and triggers.

Jun 2004–Sep 2006

Software Support Specialist

Sampas Bilgisayar Yazılım A.Ş., İstanbul (Turkey)

The company was developing software systems for all operations of municipalities. I was in a team supports customers directly. My responsibilities were; first analyze of the project, installation, data migration, training and continuous support including data mining operations, on the fly solutions includes code modifications etc.

I experienced with Oracle developer tools very first time here. I mainly code in Oracle Forms 6i and Oracle Reports 6i tools with PL/SQL, a Pascal like procedural programming language. Also, i gained high level of SQL experience here.
