JOB APPLIED FOR

WORK EXPERIENCE

March 2013 – Present

Senior Software Developer

Metglobal, İstanbul (Turkey)

- Part of a great team building backend infrastructure and services to support large number of high traffic hotel reservation sites.
- Working with Python, Django, Postgresql, elasticsearch etc.

August 2012 – March 2013

Lead Developer

Tim Ticaret Net Bilişim Hizmetleri A.Ş., İstanbul (Turkey)

TTN is a technology (mainly software) creator company works under Turkish Exporters Assembly (TİM). TTN have responsibilities of supporting Turkish associations of exporters' (various sectors) growth.

I am responsible of managing software development team which works on various size of software (mainly web apps these days) projects.

For now we are using mainly python/django/postgresql stack. Main development and deployment occurs on linux based operating systems.

We are crafting high quality web sites and web applications top to bottom including design, frontend, backend, deployment phases.

Some keywords about me and my team's interests and involvements; python, django, postgresql, ubuntu server, git, uwsgi, nginx, fabric, rest apis, http etc.

Jun 10 – Aug 12

Software Development Unit Manager

A&Y Marka Mağazacılık A.Ş., İstanbul (Turkey)

A big textile retail company includes the famous brands Network, Fabrika, Beymen Business, Altinyıldız Classics, Arzu Kaprol, Que, T-box, Divarese. I am responsible of the maintenance and development processes of the ERP part of in house developed system.

Main database is Oracle 10g RDBMS and Oracle Forms 6i/10g, Reports 6i/10g tools for user interface.

I made use of Oracle object system in my projects. I implemented some applications with object oriented facilities provided directly in database.

May 07 – Jun 10

Project Manager

Beymen Boğaziçi Alboy Mağazacılık A.Ş., İstanbul (Turkey)

Big textile retail company includes the brands T-box and Divarese. I was responsible all of the software projects. Maintenance of the in house developed ERP system mostly coded on Oracle database and Forms/Reports tools was my primary responsibility. My team consist of one or two developer except me.

I manage the whole implementation/migration of a new ERP system called Nebim Winner. The planning, data migrating, testing and implementation was successfully done in six months.

Sep 06 – May 07

Software Development Specialist

Akademi Yazılım A.Ş., İstanbul (Turkey)

Company were offering all in one solutions to big insurance companies. Oracle RDBMS, Oracle Forms/Reports tools were our main development stack. I coded directly on database with PL/SQL language. I improved my SQL experience and skills on direct database programmable objects like stored procedures, functions, packages and triggers.

Jun 04 – Sep 06

Software Support Specialist

Sampas Bilgisayar Yazılım A.Ş., İstanbul (Turkey)

The company was developing software systems for all operations of municipalities. I was in a team supports customers directly. My responsibilities were; first analyze of the project, installation, data migration, training and continuous support including data mining operations, on the fly solutions includes code modifications etc.

I experienced with Oracle developer tools very first time here. I mainly code in Oracle Forms 6i and Oracle Reports 6i tools with PL/SQL, a Pascal like procedural programming language. Also, i gained high level of SQL experience here.

Communication skills

I'd loved to be in a communicative, high quality, technical team. I enjoy discussing especially technical topics with my team mates.

Organisational / managerial skills

In last 3 years of my career and now, i am managing a small sized software development teams. I am using my organise, planning skills to direct my team's efforts to expected project outcome with success.

Job-related skills

I am working as an Oracle PL/SQL developer since 2004.
I have developed and maintained various systems in various sectors. Government, insurance, retail etc.
I develop software at high speed and quality with Oracle Forms/Reports and directly on database with PL/SQL.
Till 2012's last quarter, i am working as a web application developer and team leader.

Beside my Oracle profession i am an evangelist of open source. I use Linux for my personal development environment. My favourite languages are python, erlang, javascript, smalltalk, java, common lisp, php etc.

I love web programming and comfortable with client-server systems, HTTP protocol, client side (javascript) etc.

Uzmanlık Alanları: oracle, pl/sql, forms/reports, python, ruby, erlang, smalltalk, java, common lisp, haskell, php, web development, javascript
